

Error and Warning Examples

Test files demonstrating mdforge's error handling.

Warnings (conversion continues)

File	Trigger	Expected Output
01-missing-stylesheet.md	Non-existent stylesheet path	Stylesheet not found: ... /does-not-exist.css
02-invalid-config.md	Invalid config options	Configuration errors: with each invalid option listed
05-unknown-font.md	Fonts not on system or Google	Failed to fetch fonts " ... " from Google Fonts: 400 Bad Request

Errors (conversion fails)

File	Trigger	Expected Error
03-missing-include.md	@include with missing file	Include error: Include file not found: ...
04-unknown-theme.md	Invalid theme name	Unknown theme "...". Available themes: beryl, tufte, buttondown, pandoc

Running Tests

```
cd examples/99-errors-and-warnings
```

```
# Warnings - these complete with warnings shown
```

```
mdforge 01-missing-stylesheet.md -o /tmp/test.pdf
```

```
mdforge 02-invalid-config.md -o /tmp/test.pdf
```

```
mdforge 05-unknown-font.md -o /tmp/test.pdf
```

```
# Errors - these fail with clear error messages
```

```
mdforge 03-missing-include.md -o /tmp/test.pdf
```

```
mdforge 04-unknown-theme.md -o /tmp/test.pdf
```
