

Form Fields

mdforge supports form fields for creating fillable PDF documents using marked-forms syntax.

Syntax Reference

Type	Syntax	Description
Text	<code>[Label ??](name)</code>	Single-line text input
Textarea	<code>[Label ???](name)</code>	Multi-line text area (4 lines default)
Textarea	<code>[Label ???6](name)</code>	Multi-line text area (6 lines)
Select	<code>[?select? Label](name) + list</code>	Dropdown (fillable) or radio (default)
Radio	<code>[?radiolist? Label](name) + list</code>	Single choice
Checkbox	<code>[?checklist? Label](name) + list</code>	Multiple choices

Text Inputs

Basic text input with a label:

Full Name

Text input without a label:

Textarea

Use three question marks for multi-line text areas:

Comments

Textarea with specific line count (6 lines):

Bio

Select Dropdown

Create a dropdown by following the field declaration with a list. In default mode, selects render as radio buttons since static dropdowns aren't interactive. In fillable mode (`--fillable`), they become real dropdown menus:

Country

Another select example:

Preferred Language

Radio Buttons

Radio buttons for single-choice selections:

Payment Method

- ☐ Credit Card
- ☐ PayPal
- ☐ Bank Transfer

Another radio example:

Shipping Speed

- ☐ Standard (5-7 days)
- ☐ Express (2-3 days)
- ☐ Overnight

Checkboxes

Checkboxes allow multiple selections:

Interests

- ☐ Technology
- ☐ Design
- ☐ Business
- ☐ Marketing

Another checkbox example:

Features

- ☐ Dark Mode
- ☐ Notifications
- ☐ Auto-save

Custom Values

List items can have display text and a separate value in quotes:
