Error and Warning Examples

Test files demonstrating mdforge's error handling.

Warnings (conversion continues)

File	Trigger	Expected Output
`01-missing-stylesheet.md`	Non-existent stylesheet path	`Stylesheet not found: .../does-not-exist.css`
`02-invalid-config.md`	Invalid config options	`Configuration errors:` with each invalid option listed
`05-unknown-font.md`	Fonts not on system or Google	`Failed to fetch fonts "..." from Google Fonts: 400 Bad Request`

Errors (conversion fails)

File	Trigger	Expected Error
`03-missing-include.md`	`@include` with missing file	`Include error: Include file not found: ...`
`04-unknown-theme.md`	Invalid theme name	`Unknown theme "...". Available themes: beryl, tufte, buttondown, pandoc`

Running Tests

```
cd examples/99-errors-and-warnings

# Warnings - these complete with warnings shown
mdforge 01-missing-stylesheet.md -o /tmp/test.pdf
mdforge 02-invalid-config.md -o /tmp/test.pdf
mdforge 05-unknown-font.md -o /tmp/test.pdf

# Errors - these fail with clear error messages
mdforge 03-missing-include.md -o /tmp/test.pdf
mdforge 04-unknown-theme.md -o /tmp/test.pdf
```
